PROFESSIONAL SUMMARY:

- 3+ years of experience developing cross-platform mobile applications for Android and iOS using Flutter and Dart.
- Experienced in integrating RESTful APIs, Firebase services (Authentication, Firestore, Cloud Messaging), and third-party SDKs to build scalable mobile applications.
- Developed and deployed production-ready applications to Google Play Store and Apple App Store, managing the full mobile application lifecycle from development to release.
- Implemented secure payment processing using Stripe and integrated real-time data workflows using Firebase and backend APIs.
- Built high-performance mobile solutions including marketplace platforms, environmental monitoring applications, and real-time reward systems.
- Skilled in applying Clean Architecture principles and state management solutions such as BLoC, Provider, and GetX for scalable mobile application design.
- Experienced in debugging, performance optimization, and improving application stability to deliver responsive user experiences.
- Strong collaboration experience working with designers and backend engineers in Agile development environments.

IT KNOWLEDGE:

Languages | Dart, JavaScript, TypeScript

Mobile Development | Flutter, React Native, Cross-Platform App Development, Responsive UI Design

Architecture | Clean Architecture, MVC, MVVM, SOLID Principles, Modular App Design

State Management | Provider | GetX | BLoC

Backend & APIs | RESTful APIs, JSON Integration, API Optimization

Cloud & Databases | Firebase (Authentication, Firestore, FCM), MySQL, SQLite

Payments | Stripe Integration, Secure Payment Processing

Tools | Git | GitHub | Postman | Figma | CI/CD

Deployment | Google Play Store, Apple App Store Publishing

LANGUAGE SKILLS: _____

English | Professional Proficiency

PROFESSIONAL EXPERIENCE: _____

Since 01/2025 — Present | Mobile Application Developer Backergysoft, Dubai, UAE

- Developed and maintained cross-platform mobile applications for Android and iOS using Flutter and Dart.
- Integrated RESTful APIs, Firebase services (Authentication, Firestore, Cloud Messaging), and third-party SDKs to support real-time data and secure user workflows.
- Implemented Stripe payment gateway integration to enable secure in-app transactions and payment processing.
- Diagnosed and resolved performance bottlenecks through debugging, refactoring, and UI optimization.
- Managed the full mobile application lifecycle including development, testing, release preparation, and deployment to Google Play Store and Apple App Store.
- Collaborated closely with designers and backend developers to deliver scalable, user-focused mobile solutions in Agile environments.

Since 03/2024 — 01/2025 | Flutter Developer (Remote) Trivyol, USA

- Built responsive cross-platform mobile applications using Flutter for Android and iOS platforms.
- Developed the **Apaluma** mobile application as part of the **New Mexico Environment Department's Project Velocity**, enabling real-time environmental monitoring and data visualization.
- Integrated REST APIs and Firebase services for authentication, real-time data synchronization, and push notifications.
- Implemented geospatial data visualization and live sensor data updates to support environmental monitoring workflows.
- Applied Provider and GetX state management to improve application maintainability and scalability.
- Investigated and resolved critical bugs, improving application stability, responsiveness, and overall user experience.
- Collaborated with distributed development teams across multiple time zones to deliver features and meet project milestones.

Since 02/2023 — 02/2024 | Software Engineer (Mobile Development) AtomyCoders Pvt Ltd

- Developed mobile applications using Flutter and contributed to cross-platform development for Android and iOS.
- Built responsive UI components and implemented structured state management for scalable application architecture.
- Integrated RESTful APIs and Firebase backend services to enable secure and reliable mobile functionality.

- Assisted in application testing, debugging, and performance optimization.
- Worked collaboratively with development teams to deliver production-ready mobile applications.

PROJECTS: _____

2025 | DriveNow — Car Rental Marketplace Flutter, Firebase, Stripe

- Developed a scalable car rental marketplace mobile application using Flutter for Android and iOS.
- Implemented real-time vehicle availability and booking workflows using Firebase Firestore.
- Integrated Stripe payment gateway to support secure in-app transactions and payment verification.
- Built location-based vehicle discovery using map APIs and optimized geospatial queries.
- Designed efficient REST API communication architecture reducing network latency by 35%.
- Implemented push notifications and real-time updates using Firebase Cloud Messaging.
-  App Store  Google Play

2024 | Apaluma — Environmental Monitoring Platform Flutter, Firebase

- Developed the **Apaluma** mobile application supporting the New Mexico Environment Department's Project Velocity.
- Built real-time environmental monitoring dashboards processing live sensor data streams.
- Implemented geospatial data visualization with dynamic map overlays for environmental analysis.
- Integrated Firebase Authentication and role-based access control for secure system access.
- Optimized real-time data synchronization improving application load performance by 40%.
-  App Store  Google Play

2025 | Million Draw — Digital Lottery & Rewards Platform Flutter, Firebase, Payment Integration

- Developed a high-performance lottery and rewards mobile application using Flutter.
- Implemented secure payment validation and transaction workflows.
- Built real-time draw result updates and push notification systems.
- Designed scalable backend communication ensuring reliable data consistency.
- Optimized application stability to support high concurrent user activity during live draws.

QUALIFICATIONS: _____

2021 – 2024 | BACHELOR'S DEGREE IN PHYSICAL SCIENCE (ICT)
UNIVERSITY OF SRI JAYEWARDENEPURA, SRI LANKA

2006 – 2019 | IAB SCHOOL
ZAHIRA COLLEGE KALMUNAI, SRI LANKA
